U. S. Imperialism Active. Although the mouthpiece of American imperialism, Cal Coolidge, is saying little, his dictators, Wood in the Philippines and Pershing in South America, are increasingly active.

William Randolph Hearst, who owns huge estates in Mexico, has offered part of this land to Mexican peasants in order to stave off a peasants' uprising.

England is sending the Prince of Wales to her South African colonies to attempt to re-establish good feeling, and General Wood, pursuing another method, is murdering the Philippine leaders who are fighting American imperialism.

Soviet Russia, of course, has not been invited to attend an international conference to discuss a division of this plunder. But Soviet Russia has shown the people of China and the east that she can be relied upon to fight against any foreign imperialism, and to befriended the oppressed workers and peasants of all subject countries.

It is no exaggeration to say that there has never appeared in this country such an important journal of information and theory—when you can find articles by Gregory Zinoviev, Wm. Z. Foster, I. Stalin, Earl R. Browder, Wm. F. Dunne, Alexander Bittel—and other well known writers in one number—as you will in the April issue of THE WORKERS MONTHLY which has just come off the press.

MILITANT WORKERS IN EUROPE UNITE AGAINST FALSE LEADERSHIP AND TO COMBAT INFLUENCE OF DAWES PLAN

LONDON.—The first definite steps toward the formation of a new alliance of the unions in England's key industries, for which the militant elements within the unions have long been carrying on an energetic campaign, have now been taken.

On March 11, the executive committee of the Miners' Federation of Great Britain met with the executive committee of the National Union of Railwaymen, and later, the executive of the Transport Workers' Federation; and on March 12, the miners' representatives conferred with those of the Amalgamated Engineering Union, and a committee representing the 41 other unions into which the remaining metal workers are unfortunately divided.

Miners and Railwaymen Meet. At the meeting of the miners and railwaymen, the miners made a statement regarding the present position in the industry, the wages and hours under which their members were working, and expressed the opinion that the improvement of conditions steadily growing worse under the Dawes' plan, could only be carried through successfully by forceful and determined action.

The proceedings at this initial meeting were largely informal, and further meetings are to be held. Following this meeting, a joint statement, signed by Mr. A. J. Cook, secretary of the Miners' Federation, and Mr. C. T. Cramp, industrial secretary of the N. U. R., was issued, merely announcing that the position as it affected both organizations had been discussed.

After the meeting of the miners and transport workers, the following official statement was issued under the names of Mr. A. J. Cook, for the miners, and Mr. Robert Williams for the transport workers. It says: "After Mr. Herbert Smith and Mr. A. J. Cook had examined the objects of the meeting, Mr. Ben Tillet and Mr. Robert Williams presented the case for the Transport Workers' Federation."

"A frank discussion took place on the whole position, which will be considered by both organizations, and further meetings will be arranged." In connection with this important step towards achieving unity in the struggle that is facing the British workers, the Communist Party has arranged a great campaign for the mining, railway, metal and transport industries, to take place during the last week in March.

"Denounce the sabotage carried on by the Amsterdam International, sabotage which has lately been once again confirmed by the last resolution adopted by the plenary session of the Executive Committee; "Pledge themselves to fight within the Italian Federation of Metal Workers for admission of the Russian Metal Workers' Federation into the Metal Workers' International, and the calling of a world congress to realize the unification of the two trade union international;

"Affirm the absolute necessity of the revolutionary trade union unity of the working class, in order to form a front against the development of the capitalist offensive, aided by the secessionist action of social democracy; "Declare that, against this offensive, characterized by the application of the Dawes plan, which strikes not only at the German proletariat, but at the toiling classes of the whole world, there must be created at any cost a united front for the decisive struggle."

Unity Struggle in Czecho-Slovakia. CZECHO-SLOVAKIA. — The past year has demonstrated that the hopes of the bourgeoisie of Czecho-Slovakia that the economic crisis would soon come to an end, are absolutely without foundation. The number of unemployed has risen to 130,000, and is steadily increasing, due to the application of the Dawes plan and the sharpening of the economic crisis.

The cost of living is constantly increasing, food prices having risen 45 per cent in the course of one month. The situation of the working class is difficult in the extreme. The labor bureaucrats refuse to fight for wage increases, on the grounds that "our industry is not yet sufficiently developed to allow of an increase in wages."

Despite the opposition of union officials, the slogan of the Communist Party "towards trade union unity" is finding a living echo among the rank and file.

DAWES PLAN HITS BRITISH LABOR BELOW THE BELT

German Slavery Used Against Unions

(Special to The Daily Worker.) LONDON.—British labor is flogged with the whip of foreign competition just when the leaders of the largest unions are working for a united front in the struggle for higher wages.

The ability of the German firm to underbid British yards by from \$290,000 to \$480,000 per boat is still a mystery. There is evidence of collusion on the part of the British employers who are bent on undermining the wage movement and substituting a downward one. Secretary John Hill of the Boilermakers' Union points out that the winning German bid was considerably above the normal British price per ton and that the lowest British bid was inexcusably high.

Foreign competition underlies the deadlock in the British metal trades negotiations. The employers' federation refuses to discuss wage increases unless the Amalgamated Union agrees to consider lowering the standard of working conditions.

Cheap foreign competition is also the bugbear of the British miners in their attempt to win a bare subsistence wage. The average cost price of hard coal is \$2.80 in Germany compared with \$2.32 in England, the wage cost amounting to 42 per cent of the price in Germany and 55 per cent in England.

BUILDERS AT WORK THERE'S A DANGER!

And Also a Golden Opportunity.

In the enthusiasm and the interest born of the competition between the various locals in the Second Annual Sub Campaign for the DAILY WORKER, we want to warn our agents and Builders of a danger: you might forget the Workers Monthly.

It is important that altho this is the time to get subs for the DAILY WORKER with redoubled energy, it is also a golden opportunity for getting subs for the Workers Monthly. The second is also important.

While the DAILY WORKER is the official organ of our party giving a daily picture of the revolutionary movement the world over and serving as the guide for our actions, the Workers Monthly is the valuable journal that serves as the theoretical teacher of our membership, to give the guidance and understanding for our Communist activity.

No doubt, if you are an agent your efforts in the DAILY WORKER sub campaign have led you to wisely begin rounding up for subscriptions the members of your branch who have up to now, thru lack of understanding or lack of funds, failed to become subscribers.

The first task is the Second Annual Sub Campaign. "Now is the time for all good Communists to come to the aid of the party." . . . and in the meantime be sure that when you get a DAILY WORKER sub to "make another Communist," you also give out a sample copy of the Workers Monthly to help you do it.

STATE POLICE NOT LIKE FICTION

(Continued from page 1) various organizations represented were the Illinois Chamber of Commerce, the Illinois Manufacturers' Association, the Illinois Bankers' Association, rotary clubs, kiwanis clubs, automobile clubs, etc.

Opposed to these mighty ones are the poor farmers themselves, as well as every labor organization in the state worthy of the name.

What this important struggle is about the readers of the present articles must now thoroughly understand. In this concluding article, I intend to sum up briefly everything that has been brought out before relative to the scheme to establish a state police and to draw a few conclusions.

(1) That the Dunlap bill now before the Illinois legislature provides for the establishment of a heavily armed, military police force, free to invade any community in the state at will, with or without the sanction of those communities.

(2) That a vast and expensive campaign of propaganda is on foot to deceive the workers as to its real purposes and to bring about the acceptance of the measure.

(3) That altho it is pretended that the state police bill is for "rural protection," it did not originate with the farmers, but with bankers and wealthy business men, who are at present its chief backers.

(4) That its purpose is industrial, to break strikes and to interfere with every organized effort on the part of the workers to better their conditions.

(5) That insofar as its purpose touches the lives of rural communities it is as an enemy of the poor farmers, in the interests of landlords, moneylenders, monopolists and railroad magnates.

(6) That a state police force means a system of permanent system of international law, with complete disregard of constitutionally guaranteed rights, such as free speech, free press, freedom of assembly, etc.

(7) That the scheme is simply a development of the present tendency of American capitalism to build up a powerful centralized governmental machine to protect its monopoly profits from the "encroachments" of those whose labor power produced them.

(8) That altho the above is proved not only by the conditions surrounding the agitation for the Dunlap bill in Illinois, but by the actual experiences of military police establishments in Pennsylvania, West Virginia, New York, Colorado, etc., and by the depredations of the notorious Royal North-west Mounted Police of Canada.

(9) That the continued pretenses of the capitalists that they want to protect the

FOREIGN WORKER MENACED BY THE ANTI-RED BILL

Protest Meet Arranged in New York

(Special to The Daily Worker.) NEW YORK, March 30.—The new deportation bill, introduced by Congressman Holliday and passed by the house of representatives in February, is one of the most vicious bills that have ever been considered in this country.

The workers of this country must awaken to the seriousness of the situation. The government is preparing a new attack on the foreign-born workers, in order particularly to cripple the trade union movement. The most active trade unionists in this country are, in great part, foreign-born workers. They are the workers who today are causing uneasiness to the reactionary trade union officialdom.

The capitalist government of Strikebreaker Coolidge and "Minute-Man" Dawes will succeed in putting this bill thru the senate if the workers of this country do not wake up. The workers of New York City will tell the government on Friday, April 3, at Manhattan Lyceum, 66 East 4th St., that this bill must go. The native and foreign-born workers will not be divided on this subject.

Workers of New York! Come by the thousands to Manhattan Lyceum and show the government that you are determined to fight for your rights. Agitate in your shops and trade unions. Get resolutions passed and send them to the Labor Defense Council, 108 E. 14th St., New York, who are arranging this protest meeting.
